Assignment –2
Introducing Relational Databases.

1) Which field of the Customers table is the primary key?
    Ans: "Cnum" is the primary key.

2) What is the 4_{th} column of the Customers table?
    Ans: "Rating" is the 4th column of the Customers table.

3) What is another word for row? For column?
    Ans: For row: Tuple, Entity, Opportunity.
            For Column: Attribute, Key, Method.

4) Why isn't it possible to see the first five rows of a table?
5) Ans: Because the data gets stored randomly into the server ram without sequence, it's not possible to see which are the first five rows of the table.
